

**Project Design Phase-I**  
**Solution Architecture**

Date	19 October 2022
Team ID	PNT2022TMID04841
Project Name	Inventory Management System for retailers
Maximum Marks	4 Marks

**Solution architecture:**

A solution architecture is an architectural description of a specific solution. SAs combine guidance from different enterprise architecture viewpoints (business, information and technical), as well as from the enterprise solution architecture.

**Purpose:**

- It helps ensure that a new system will fit the existing enterprise environment.
- To perform this task, a solution architect has to understand how all parts of the business model work together including processes, operating systems, and application architectures.
